

TELL CONGRESS:

NO CUTS TO MEDICAID!

Republicans are Planning Massive Medicaid Cuts.

Republicans in Congress are planning a massive tax cut for corporations and the rich of up to \$5.3 trillion. They're planning to pay for these irresponsible tax cuts in part by cutting \$880 billion from Medicaid.

Millions of Americans Will Lose Health Care Coverage.

More than 83 million people are covered by Medicaid—and these cuts will boot millions of Americans off the program and cause them to lose health care coverage. This includes children, people with disabilities, seniors and lower-income families.

Hospitals, Clinics and Nursing Homes Will Be Devastated.

Medicaid covers 20% of hospital spending and more than 60% of people in nursing homes. These cuts will force many hospitals, clinics and nursing homes to close or downsize. These cuts will cause nearly 500,000 health care jobs to be lost nationwide.
