

A MESSAGE FROM THE
DEPARTMENT OF PEOPLE WHO WORK FOR A LIVING

**TELL
CONGRESS:**

DO YOUR JOB and **PROTECT WORKERS**

Donald Trump campaigned on lowering prices but instead he has shut down agencies that protect working people, put our personal data at risk and attacked federal workers. Congress must do its job and stop these attacks.

Trump Shut Down Key Labor Board and the Consumer Financial Protection Bureau.

Trump illegally fired a key member of the National Labor Relations Board (NLRB), stopping it from punishing anti-union corporations. And he's shut down all work by the Consumer Financial Protection Bureau, which protects workers from corrupt financial institutions.

Trump and Elon Musk are Putting Our Confidential Data at Risk.

Elon Musk and his so-called "department" tech bros are wreaking havoc throughout the government and putting millions of Americans' confidential data at risk, including Social Security numbers and tax returns.

Trump and Musk are Violating the Rights of Federal Workers.

Trump and Musk are attempting to shut down agencies and fire huge numbers of workers. Federal employees have civil service protections and collectively bargained rights that are protected by law, and Musk and Trump are trying to ignore those protections.
