

A MESSAGE FROM THE
DEPARTMENT OF PEOPLE WHO WORK FOR A LIVING

TELL CONGRESS:

DO YOUR JOB and **DEFEND WORKERS' RIGHTS**

Elon Musk and his so-called “department” are wreaking havoc on vital programs across the government, politicizing the workforce and violating the rights of federal employees. These attacks must be stopped and federal workers must have their rights respected.

Workers Deserve Due Process.

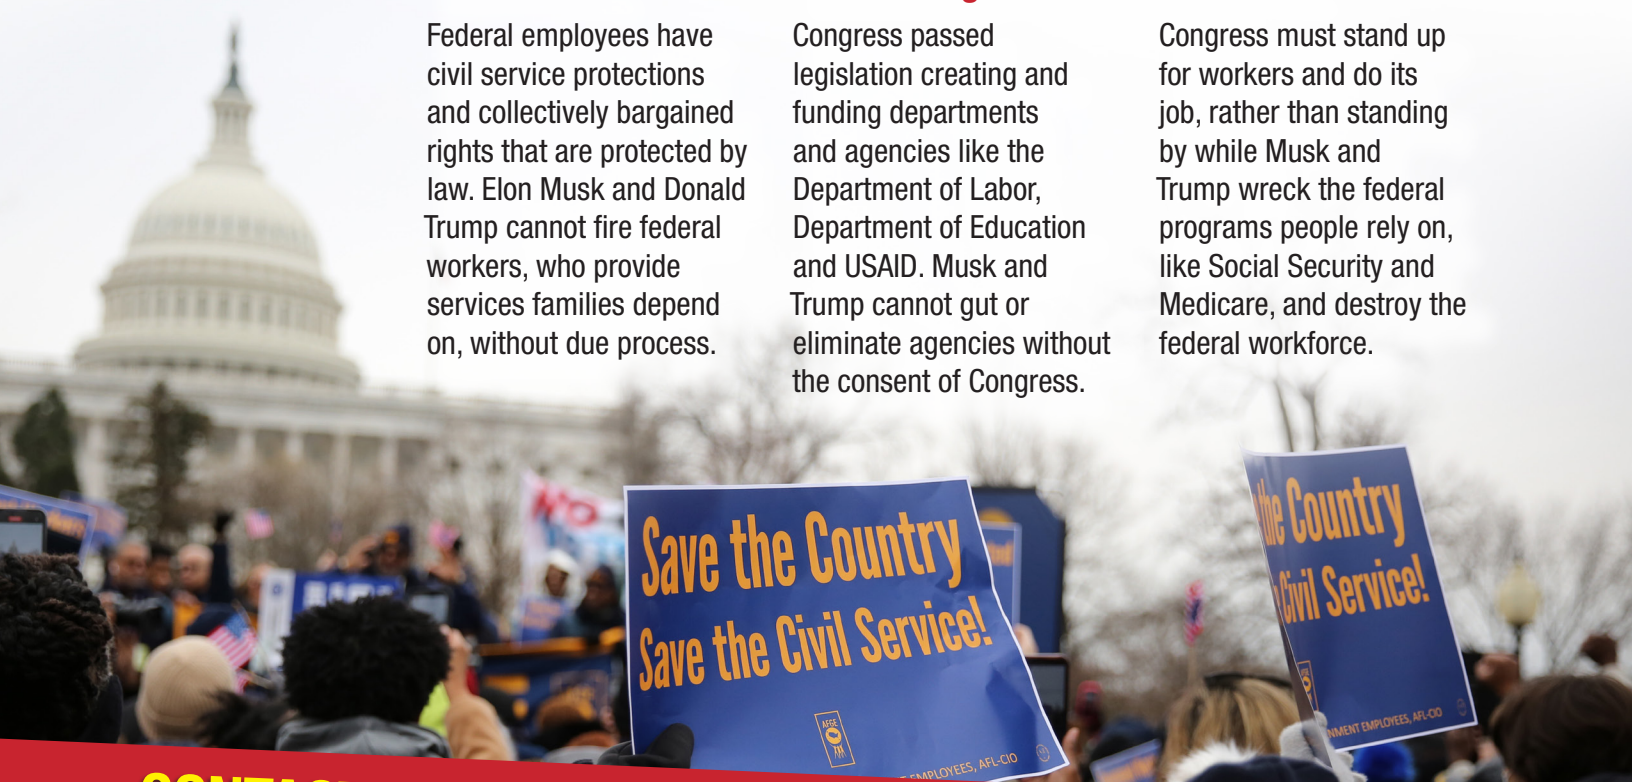

Federal employees have civil service protections and collectively bargained rights that are protected by law. Elon Musk and Donald Trump cannot fire federal workers, who provide services families depend on, without due process.

Elon Musk Cannot Eliminate Agencies.

Congress passed legislation creating and funding departments and agencies like the Department of Labor, Department of Education and USAID. Musk and Trump cannot gut or eliminate agencies without the consent of Congress.

Congress Must Do Its Job.

Congress must stand up for workers and do its job, rather than standing by while Musk and Trump wreck the federal programs people rely on, like Social Security and Medicare, and destroy the federal workforce.
